- Account Info

1

Configure your Identity Provider

2

Configure Service Provider

Configure your Identity Provider

Provide this plugin information to your Identity Provider team. You can choose any one of the below options:

a) Provide this metadata URL to your Identity Provider

https://mission.vodafone.de/?option=mosaml_metadata

b) Download the Plugin XML metadata and upload it on your Identity Provider

Download XML Metadata

c) Provide the following information to your Identity Provider.

SP-EntityID / Issuer	https://mission.vodafone.de/wp-content/plugins/miniorange-saml-20-single-sign-on/	
ACS (AssertionConsumerService) URL	https://mission.vodafone.de/	
Single Logout URL	https://mission.vodafone.de/	
Audience URI	https://mission.vodafone.de/wp-content/plugins/miniorange-saml-20-single-sign-on/	
NameID format	urn:oasis:names:tc:SAML:1.1:nameid-format:emailAddress	
Recipient URL	https://mission.vodafone.de/	
Destination URL	https://mission.vodafone.de/	
Default Relay State (Optional)	https://mission.vodafone.de/	
Certificate (Optional)	<div>Download</div>	

Service Provider Endpoints:

SP Base URL:

https://mission.vodafone.de

SP EntityID / Issuer:

https://mission.vodafone.de/wp-content/plugins/miniorange-saml-20-sin

Note: If you have already shared the above URLs or Metadata with your IdP, do NOT change SP EntityID. It might break your existing login flow.

Update

Support

Need any help? We can help you with configuring your Identity Provider. Just send us a query and we will get back to you soon.
